👤 PROFILE

Motivated and enthusiastic DevOps Engineer who is driven by solving problems and having fun at the same time. Always looking forward to new challenges but never afraid to ask for help if he gets stuck. Focuses on solutions instead of problems and believes that anything is possible.

📁 EMPLOYMENT HISTORY

DevOps Engineer at Saab, Järfälla (Consultant via Nexer Infrastructure)

December 2022 — Present

- Virtualization with Docker/Kubernetes
- CaC and automation with Ansible
- Linux administration
- Monitoring/visualization with Prometheus, Grafana and Opensearch
- CI/CD with Jenkins
- Development of web applications using Python/Django
- Applied agile principles and practices, as a member of the scrum team

Scrum Master at Elekt, Stockholm

November 2021 — December 2022

Scrum Master for the Neuro DevOps team alongside my DevOps role, following the SAFe methodologies. Attended course and took certification for SAFe Scrum Master. (<https://www.scaledagileframework.com>)

DevOps Engineer at Elekt, Stockholm

May 2021 — December 2022

Participated in all DevOps related activities to support our Business line with emphasis on infrastructure, tools and software deployment support including such activities as:

- Server maintenance, set-up, monitoring, virtualization and infrastructure automation
- Managing and updating the software development environment and infrastructure
- Maintaining, upgrading, and making improvements related to tools used by DevOps or our development teams (such as Git, Subversion, Artifactory, Jenkins, Jira, Confluence etc.)
- Developing and improving scripts
- Performing evaluations of technologies, methodologies, and products
- Applied agile principles and practices, following SAFe methodology initially as a member of the DevOps Scrum team and later also as a Scrum Master for the team

DevOps Engineer Intern at Elekt, Stockholm

November 2020 — April 2021

Performed a variety of DevOps related tasks under the supervision of senior team members.

Master Thesis for the DevOps Engineer education was also done during this internship with support from Elekt.
